WHAT IS TRUST AI ECOSYSTEM?

INTRODUCTION

The emergence of artificial intelligence has significantly impacted multiple facets of our daily existence, with the cryptocurrency market being no exception. By seamlessly amalgamating with market dynamics, we can anticipate the transformation of this sector, with the potential for enhancements. From streamlining the process of contract creation and validating coin insights (where NFTs) to optimizing trade executions through automated swap platforms, AI infuses operational efficiency and user convenience.

OUR ROADMAP

STARTEGY & PROJECT PLAN

Phase 1
START TRUST AI
- Website & Smart Contract Testing
- Website Optimization
- Audit and KYC
- Fantasum on Pinksale
- Launch on Pinksale
- Big Marketing Campaign
- Dextools Update

Phase 2
TRUST AI
- 500 Holders Milestone
- Website V.2
- Massive Marketing
- Strong Partnership
- Listing on CMC

Phase 3
TRUST AI
- 1000+ Holders Milestone
- Website V.3
- Listing on CGK
- Sponsoring Agreement

Phase 4
TRUST AI
- 5000 Holders Milestone
- Website V.4
- Strong Partnership
- Listing on CG
- Certik

Phase 5
TRUST AI
- Start TRUST AI
- 2500+ Holders Milestone
- Website V.3
- SMART Asking Language
- Create smart contracts
- NFT AI
- Creating websites
- Merge Image AI

Phase 6
TRUST AI
- 10000+ Holders Milestone
- Blockchain AI

FAQS

What is Trust AI?

Trust AI is not just a project, it's a paradigm shift in the digital landscape. We're a dynamic platform offering a blend of cutting-edge technologies, including smart contract creation, website development, image merging, staking, NFTs, secure wallets, and robust blockchain solutions. It's the ecosystem where innovation meets empowerment.

How does it work?

How do I benefit from the TRT Token?
